Subject: **Local Officials Meeting Notice**

WIS 29
County J to US 41)
Brown County
Project I.D. 9202-07-01,02

Greetings:

The Wisconsin Department of Transportation (WisDOT) has scheduled a local officials meeting to discuss proposed improvements on subject. The meeting will be held **Tuesday, June 27, 2006 at the WisDOT Northeast Regional Office, 944 Vanderperren Way, Green Bay**. It will start at 4:30 p.m. and is expected to conclude by 6 p.m.

The purpose of the meeting is to provide information on the proposed improvements, review the alternatives being considered, and to obtain input that will assist the department in further development and refinement of the alternatives.

The improvement concepts include reconstructing the US 41/WIS 29 interchange to provide free flow traffic movements between these major highways and reconstructing WIS 29 between County J and US 41 to improve traffic flow and safety. Three design concepts are being considered for US 41/WIS 29 interchange. All three would provide uninterrupted travel to and from US 41 and WIS 29 by using tiered ramps to separate local and regional traffic movements. Proposed improvements on WIS 29 include a grade separation structure at County J with J over or under 29), an interchange at County EB (Packerland Drive/Cardinal Lane) and a frontage road on the south side of WIS 29 between County J and County EB. Design options at WIS 29 and County EB include an interchange (with EB over or under 29) and a possible roundabout in conjunction with one of the interchange alternatives.

We look forward to your participation in this important meeting. If you have any questions at this time, or if you cannot attend the meeting but would like to find out more about the proposed improvements, please call (920) 492-5997 or send e-mail to charles.karow@dot.state.wi.us.

Sincerely,

Charles Karow, P.E.
WisDOT Project Manager
